Medals Table for Bangkok Asian Judo Championships 2013 shows Japan stood first followed by Korea South as second Mongolia as third. We can note with the medal standings that there are many countries are getting coming into the medal and place standings. My strategy is that more and more countries to take part in the Championships events and come to recognition. It is not only the well known countries to rise up in levels but other as well to come up and be a part of Judo fame. I would add that even India, Pakistan and Thailand have now come to the medals and standings with more interest. Also I want more and more countries take part, which we notice see here in Kuwait as many as 33 countries are taking part in completion.

We have planned the Team Championships for the Junior Judo Category as well in accord with International Judo Federation who are conducting the same. In Judo Union of Asia it is planned for the coming Asian Junior Judo Championships in Bangkok, Thailand in month of October, 2015.

I would like to stress while concluding this report that strong Judo approach as taken up by our IJF President Mr. Marius Vizer has been productive.

Given our Judokas good training program catered at the Cadet and sub Cadet levels and

Thereby, making the Judo Sport good general viewing public to enjoy.

Helped with many technology tools to give Judo a better future.

As immediate plans for the future I would like to open Judo Training Centres at two more and one more after that, in our zones namely in the Western and Eastern zone, and then in the Southern. I trust that this will induce our Judokas to get more exposure to Judo benefiting them in their pursuits.

I would like to report to my fellow Judo colleagues about the activities of our zone. The East Asia Games 2014 was successfully held in Ulaanbaatar, Mongolia respectively.

Result achievement of 2014 Incheon Asian Games within EAJF

During the period since my last report member federations of East Asian Judo Federation have had a great result in many International events especially at the 2014 Asian Games that was held in Incheon, South Korea last year. Our East Asian region captured 13 gold medals and 10 silver medals, 21 bronze medal in individual category proudly, not to mention team event which was the tremendous achievement.

President's Role

The East Asian Judo Federation EC members including myself and my General Secretary Mr. BukhbatMashbat has been closely working together focusing on especially East Asian Judo Championships. Recent judo events are only focused on IJF events since the Olympic qualification system changed. There are not so many events that focus on harmony and friendship between member federations anymore. However, Judo is more than just a Sports. Judo is more likely about values. In order to promote this such a great values, I insist to have more event games in our region.
